Give three observation / suggestions to improve the overall teaching – learning experience in your institution.

207 responses

Regular tests should be taken after each chapter. Teacher should inform the students which lesson they will teach the next day . Self study also should be promoted.
It's already very good
Learning experience is great
.
They can give live example for better explanation
Teachers can give more examples (broad view on the topic) Not to rush with the portion in hurry.
I don't have anything because I'm satisfied with my institute what they are delivering us
No suggestions
Can be more better and more effective.
No suggestions
Get the teachers to realize the importance of understanding the students mental health and try to be more kind
Method of teaching should be improved a lot. Its not fair to expect good marks from the students if the teachers don't put any efforts in teaching. Studying for 5 hours straight isn't possible and especially when we get just 15 min break.

Nothing
There are no suggestions
.
More practical teaching More use of examples Apart from constant teaching, we should have fun activities like field trips, talent and fun week etc.
More practical on field teaching
Everything is good
Instead of having a mentor..just give us a class teacher
No suggestions
1.Showing of videos and images related to learning

The institution should get more placements for internship s.
The mentors should be teachers who were with you right from the start and who know our progress.
Studying in the heat is unbearable teachers should get more fun ways to teach rather than the same classroom.

.

Nthg much The teaching of the teachers are absolutely good.....hope the teachings continues like this only in the upcoming future..... overall the teaching and learning experience is excellent

Very well prepared and good

If they can share ppts of the chapters.of all subjects.

Use more new strategies for teaching and explaining. Use new activities by which students can understand easily and better.

None

Nil.

The overall learning experience is very good at our institution

None

Send the PDFs of each chapter so that nothing is missed by us while noting down points.

More of filed trips

.

More use of digital media in explanation.
More study related works from real world.

I feel teachers should just not read the PPT's and hurry with their portion. They should make sure each and every student understand what they are teaching.

Our institution teaches best

.

-

Good

—

Communication

Have more creative activities

If only we could start majoring in a particular subject from FYBA onwards.

Make teaching a two way interaction.

None

-

Teacher's always stick to only one example about a particular topic so i would suggest on giving more examples sometimes we as students can't understand it

Lessons should be made more interesting and more examples should be given on a particular topic.

Teachers must gives lots of examples.

Keep questioning the students.

Must give revision test every week.
There should not be a rush in completing the portion
Good
No suggestions
We need to have more sports activities to bring out different talents There should be more involvement for extracurricular activities And if students play they should be given an opportunity to give up atleast one subject it atleast encouraged to carry on playing
More with an example
1. There need to explain and make us more understand each and every student 2. it should be not boring when tr explain 3. There need to give notes and answers to be understand
N
Understand students point of view, try to solve doubts and clear it.
Lesser syllabus, clear and slow explanation, less teaching hours cause its tiring for the post lunch lectures.
Less syllabus Explanation should be more in details Teaching hours should be less
Very good

.
It's good
I personally don't have any suggestions because I'm satisfied with the way everything's going on so far. Thank You.
Non.
Nil
Deadlines need to be informed in advance, as much as possible.
Everything is fine
1. Try using a fun element to teach when the topic to be covered is too much to take in. 2. Teaching in different educational places to help learning be a better process other than it just being within the four walls of the classroom. 3. Have a lot more of practical skills rather than just theory
Show some videos about the chapter
1) Showing and discussing assignment marks with the students. 2) Fixing the fans in the institute as they are barely working well, which is sometimes a reason why students skip school on days that are too hot. 3) To be taught a few soft skills throughout the course of study.
Okay
No suggestions.

—
Teachers should use projectors and should show us videos regarding the topic we are learning as it's a good way a effective learning
At times teachers run with the portion last minute which could be avoided by being more tactful when it comes to distribution of lectures per chapter.
We do not get any exposure not placements and neither proper career guidance. The teachers in my department do their best to help us however, it is not the same from the institution on the whole.
Nothing
No suggestion overall excellent !!

No suggestions
Some teachers can take time and reduce their speed of teaching so that students understand the matter well instead of just hurrying up with the syllabus
all is good ,no suggestion
No comments
Nothing
Having more certificate courses (like other dept keeping it open for all)
Provide ppts that are being used because sometimes teachers use information outside reference books
Increase off campus activities to teach
Students interactions should Increase
Increase competition
Nothing
Nothing

-
None
While teaching teacher should give more examples.
Teachers should try giving more simple examples on difficult topics and make it simpler.
*More courses should be offered
* Many programs and interclass event should be organised
Nthg
-
.
.
please include more practical learning than theory
make the syllabus slightly less as it was hectic

.....

No suggestions

..

-

Overall it is good.

*Teachers should encourage students more to participate in extracurricular activities and sports mostly

* Cricket training should be introduced in the college

Otherwise all is good and it's the best college in Goa according to me.

Can make it more engaging and simpler to understand.

Good

More practical than just theory

Its perfect

I'm satisfied w this college

1.All the Teachers are excellent in their work. 2.They try to understand us and explain the concepts accordingly.

3. Besides teaching, they also motivate and encourage us in other activities.

.

The overall teaching is very good

.

Giving feedback on assignments like where the student has lost the marks will help students to improve .

1.Organize some field trips for Management students.

All teachers are excellent in their job

--

All teachers are excellent their work.

—

Can make classes more interesting by arranging some activities relevant to subject.

Teachers should name the books which we have to refer to for study material.

None

—

Office staff should be friendly

Nil

Nothing

Show videos

It is excellent no need to any improvement

none

Using of LCD projector helps in understanding better.

There should be at least one free lecture in a month to do something fun so that students get refreshed and don't feel bored.

Conduct a small test after every chapter is finished.
