

The priority of Carmel College will always remain to uplift, empower and educate any young woman who seeks an education here. The vocation, prayer and love of the Management, resourceful and caring faculty and the readily available nonteaching staff are all factors that contribute towards the creation of a safe space for young women on this campus. Our sole aim is to liberate young women from the shackles of backwardness and ignorance and to help them to live and stand for the truth always in keeping with the College MOTTO, “Satyameva Mukti Danam” . (Truth is the gift and the giver of freedom).

The spacious and verdant campus ambiance complements receptivity for learning in a relaxed and non-threatening manner for first generation learners. The college has a state-of-the-art sports infrastructure complete with indoor badminton court, football ground, gymnasium, basketball, volleyball & handball courts; a Natural History Museum, a Physics Museum, free Wi-fi for all on campus; a Bio-diversity Cell and a large area for future expansion. The Management through their hard work and untiring effort keeps the campus always clean and green.

Our students are our pride and seeing them stand up on their own feet financially, emotionally and spiritually is what makes us grateful to the Almighty. We inculcate in them the aspiration ‘the Sky is the limit’ and the sisters of Apostolic Carmel Society of Nuvem who manage this tertiary institution can say with full confidence and pride that our students have spread the wings far and wide, across the seas, to all corners of the globe supporting their families financially, holding high posts in various sectors and have earned laurels for themselves and their Alma Mater.
