.
.
There should b field trip in every subject
Nothing
No suggestion
No basic amenities like wifi .
Nil
-
There should be an initiative taken to organise events like fun week, intercollegiate events, etc.
No suggestion
Please make the fans proper it's very hot overall everything is good
No suggestions
Wifi accessibility for students
Held more events
Different methods can also be used in teaching.
Fun activities between teaching
Nothing
Nothing
Asking less questions to the students as some students can perform well by listening rather than interacting Curtailling lectures after 2:00 as its exhausting and concentration levels decrease Providing notes and respecting private space of students We need comfortable benches! They're too harsh on our butt's! Replacements of fans so that distraction of feeling heat doesn't occur.
Having more communication with students and solving their weakness
.....
Keep only one teacher for a subject in a class. Don't keep the same subject twice a day. Shorten the afternoon lectures.
..
Nothing
Try to ask the students about their doubts Encourage students in cooperative learning Advice students for their career and academic opportunities
-
1) Get better professors who are willing to prepare proper ppts and not just copy paste from Google and then present by just reading the ppt and not explain the matter.

2) 15 min break isnt enough to recharge our brain, atleast a 30 min break is needed.
3) there should be a satisfactory form regarding each professor so that we can address our issues to them individually.

Creative teaching and more use of technology

.

No suggestions..

There should be good LCD in our class

.

No suggestions

While teaching teachers should also make the use of blackboard.

-

Everything is perfect in the institution

Teachers should give more problems for homework and discuss them during lecture also.

1. Increasing the duration of semester

Would like to have a better laboratory facilities in the PG department with much better working equipments and laboratory supplies.

Proper facilities

To be organised

Proper time schedule to be followed

Make better presentations

1) Provide notes or ppts to make it easy for us to study and learn the concept.

2) breaks between the lectures are necessary

3) Not to extend the time limit of the lecture.

No suggestions

1) Follow the order of the syllabus while teaching,

Access to better lab equipments

Teach at a speed the students can understand &

Provide notes

Teaching should not just be a learning point of view but a experience to be prepared for the opportunities ahead in the world.

Presentations should be prepared in a way that it is easy for everyone at any level to understand without being explained.

Delivering lectures should be done in a way that every student understands the concept clearly, rather than rushing to just complete the portion.

More on soft skills and life skills can be inculcated, strengths and weaknesses of students should be identified and more use of examples and applications during teaching.

Can understand better with presentations

Good study materials

* Teacher should concentrate on their teaching, not on our dresses or personal life

* They should encourage students or take subjects which are good in the coming future rather than

discouraging them * Should maintain proper connection with students
Teaching to fast
-
No subtopics should be given for self study as we don't understand atleast it is necessary that they explain
.
.
1) Explanation of themes after every unit. 2)Overall revision. 3) Chapter-wise explanation
.
....
...
No
No
No suggestions.
suggestion - is teaching institute should take us to field trip as related to our studies .
Suggestively more activities should be conducted, where in all participate.
Nothing
Good excellent
Everything is fine
None
Descriptive explanation on the assigned ISAs
I feel that the teachers are always thoroughly prepared for classes and the overall quality of teaching in my institute is very good
Everything is fine here. No changes are required.
Nothing
.
No suggestions
Nothing
...
Teachers are always helpful and kind
They should try to reach out to all the students for extra curricular activities.

Nope
Nooo need
no suggestion
1) Reduce the number number of students per class compared to present. 2) More number of field trips and overall practical experience.
Do Communicatio well
Very Good!
1. Try to communicate and understand every student problem in each subject.
I suggest, if you don't want to substitute formal/professional word at least you can add up other/informal word. It helps students to clear the meaning or concept.
-
No suggestion
I would suggest that the college takes the students on study tours or field trips.
Teachers should not run fast with the portion.
While exams are approaching teachers are going fast with the portion
Teacher are going fast in portion when exams are approaching.
Have actives so all can be attentive during classs
Teachers are going fast with the portion while exams are approaching
Teachers should not run fast with the portion .
Everything is alright
Nothing really
No suggestions
College activities
Can switch to better teaching by activities or something
.
-
Explain with example Teaching is good
No comments
Good

They are very good
Good
Good
Everything us satisfactory
More field trips can be included
.
Good Need to give more attention
-
Students should have individual classroom assigned only to them since by the next lecture the placement is changed completely. The computer and projectors have problem and don't work regularly. Also there should be an increase in department activities.
More communication skills
Very good!
More communication skills.
.
-
-Give Notes -creative teaching and use modern technologies .. -encourage students to take part in different activities.
Nothing
No comments
Fine good
Better classroom accommodation and better internet and PC access

More practical learning through field trips. Question bank should be given. Give sufficient study holidays.
None
.
None
They are good
.
Could be better in ways of discussing the paper once answer or later in the day.
No comments
None

Can give more examples
Slower and steady Use of screen should be less Giving notes
Good
No suggestions
Nil
Everything is good
.
One teacher i can't understand anything she teaches
Non
1. Teach with LCD projector 2.suggest with wt book we should refer fir syllabus.
No suggestions
Participate in all other college events. Encourage more field study Give TY Zoology, TY Botany students a class as they are sitting in lab.
None
Nothing
No suggestions
A request to few teacher, who say they will complete a particular topic some other time, please complete it.
You should understand students feelings.
Nothing
Everything is ok
There must be slow in teaching bcoz some students don't understand when they run in teaching .

Test must be taken regularly
Teaching should be more practical basis then keeping it limited to the books
None.
None
.
The teacher is always helping and kind. Good learning experience.

N
Nothing
Nil
—
Teachers please do not read the slides of the ppt it makes learning boring and students don't understand anything.
-
Teachers should be regular...due to irregularities some teachers take extra class which is not appropriate to the students.
No suggestions
Its was great
--
Learning experience is good here
Students should be taken out for field trips. Teaching should be more practical, like to show more videos, concepts should be taught by practical teaching. Concepts should not teach only in classrooms but students should tk outside and show them with live examples, so that students can understand better, and there will be different environment than classrooms.
Field trips should be organised for students related to the particular subject, Communication speed should not be too fast,
-
—
--
.
Everything is good
1. Teachers run with the portion when exams are approaching
Non
-
-
Nothing
No suggestions

It is good
Good institutions
Nothing
No thanks
Nil
.

- Use if technology should be more
- weakness of the students should be discussed individually

No suggestions

Proper LCD to b installed

My Learning experience in this college is really good.... I just studying in Carmel college....

-

No suggestions

.

- 1- Keep some good events in college
- 2- Not only certain students who have taken certain subjects should be taken for field trips and all but all the students should be given this opportunity
- 3- Students should be allowed to participate in other college events

No suggestions

.

Keep only one teacher for one subjects rather than two.
Avoid changing teachers frequently i have had around 5 teachers for one subjects who are changed just after 2 weeks or so.
When we have free lectures there are no free classrooms to sit.
Please avoid reading students answers in class infront of everyone.
Rules should be equal for everyone and especially library rules.

The classes should be shortened a little bit. It's too difficult to be focused for an hour.

-

Teacher's encourage us to learn new things n encourage us to participate in activities

Good teaching

.

If there could be computer classes and other workshops conducted like candle making, stitching or coding it would be really amazing.

-

Please use less ppt to teach....the normal mode of teaching was still better.
Have more field visits for us.
I filled the same last time as well but saw no change.

No suggestions

No suggestions

Teachers should be friendly.They should often take us to field trip
Shouldn't teach continously for full one hour

- 1)Teachers should be friendly with the students
- 2)They should often take us for field trips
- 3) Shouldn't teach continously for full one hour

- 1:Talk something beyond syllabus,I want to hear experiences and learn from it.
- 2:Go slow with syllabus
- 3:Add field trip and practical things to make class interesting.

1) teachers should be friendly 2) they should often take us for field trips 3) shouldn't teach continuously for full 1 hour
1) Teachers should friendly 2) They often take us for field trip 3) shouldn't teach continuously for full one hour
Teacher's please do not read the slides which becomes learning boring. Ppt should be interesting instead of just notes.
Study holidays before SEE
Teaching should little bit slower and clear and more in understanding explanation form
All the teaching methods are excellent and even the teachers are supportive and understanding.
I would suggest teachers to provide notes.
Nil
-
No suggestions
No suggestion
Bad
let us choose the subjects we like
None
Use of more examples to make the topic interesting
Teaching should be fun
Teacher's should give notes
.
Startwith syllabus on time , follow scheduled lectures
Good
overall the instruction is Preparing us quit we'll for the outer world .
Proper LCD to be installed in classrooms

.
Include more practical use of theory Include more activities outside class
Fun learning
NIL
Nil
No
Free courses online on relative topics(eg marketing-emarketing)

Very good
Nothing
Need improvements and very less events/activities happening
The institution should take students on field trip
None
About NSS Mark's there should be different ways for a student to get marks, Because some students have dust allergy etc . And when it's about teaching they are fine and studies we can manage we need to put more affords.
Institute does not have good event so that students can participate in college .
Nathing
.
The projectors should be repaired it does disturb the class.
The institution is great
.
Not needed
Noooooo!!!!
we as students learned many life enhancing courses apart from education. College timing can be altered for the sake of students who travel from far places.
-
Institute does not have good events so that the students can participate in college and we are not even informed about other college events
I am proud to be a student of Carmel college, ample of opportunities, encouragement and attention given to students. Availability of teachers of teachers whenever students are in need is best in this college. Thank you.
They are explain again& again They try to give more knowlegde fir r good
-
Try to make us understand the concept more easily.
Self study should be restricted
No suggestions
Educational field trip to students Longer breaks
More educational trips to commerce students.
Teacher need to stop doing partiality..
Sometimes,some teachers do the partiality but the teaching is very good they explain everything apart from tht students take their friends to participate in various activities

The questions could be discussed after answering the exams.
have more events and let students participate in things they like have more things. like more games more activities so that even if kids are not good in studies Than atleast they know they have a different interest which they are good at
..
Projector quality
NO
.
It is very good, they explain whenever we want help, they help to build our confidence
No suggestion
I don't know
.
No comments
Teachers should communicate with students n understand them.
.
.
Good
Nil
Nothing
Teachers should take innovative ideas to explain the topic's while conducting their lectures
-
None
.
Teachers should conduct classes in such a way in which students can understand the concepts easily.
It is good Understand Supportable
Modern teaching should be more practical
It's good
More extracurricular activities need to be promoted
Everything is ok
Teaching in slow pace is needed...
-
1:Need atleast one day holiday after each subject exam in SEE 2:Teacher's should send atleast confusing chapter notes 3: Teacher should give atleast 5 minutes break during theory concepts.

After completion of any chapters, notes or question banks should be provided. More library books should be allowed to take at a time.
The number of students is high so most practicals are done in group mostly The books referred by teachers have few copies in the library
Which book to use for reference purposes
There are not much fun activities
.
The teachers should make an effort to do presentations so that it would be easy for students to understand. There should be activities relating to studies so that it would be more interesting.
While setting the PPT no images are there in order we cannot understand Sometimes they teach too much which is going above our head Try to recognise who are weaker students and try to explain in simple method
More intercollege event should be held and allowed to be taken part in. Time table should be followed properly and should not exceed teaching hours Interclass competition should be organised monthly
Teachers should be on time Intercollege events should be organized more often of students interest Time tables should strictly be followed and not exceed the teaching hours
...
Overall good
When the teachers don't present the ppt it's little difficult to understand.
College MUST allow students to participate in other college event, and also institute should organise programs as this will help the students in many ways . (Other than career talks everytime) .. because college is not only for studying but also for some enjoyment.. We feel very sad to see other colleges always enjoying. We science students are not even informed(if sometime)any event is happening in our college .
Everything is good. No suggestions needed
No comments
Want some teachers to go slow with the portion
Nothing
No
More interest my trs to take part in intercollegiate activities,more intercollegiate events in college , explaining beyond the text
.
No suggestions it is good over all
No suggestions
They can try to make the class more fun
Style of teaching is excellent But
More examples and going slow with the portion before time and not just before exams.

Nil
No suggestion
Provide notes
Nothing
No suggestions
Field trips. Department activities
No suggestions
1. Could provide more course/subject options to choose from. 2. Could organize more inter-college and inter-class events for students to participate. 3. Could start the college a little late just like other colleges at around 9 am so that the students from far distance can reach on time and do not miss initial lectures.
Nothing
-
Modern learning and more participation
.
.
-
.
Teachers should try to be slow with their portion
More field trips Less journal work More interactive classes
- Better quality technology such a projectors. - Better teaching tools such as ppts - Zoology specimens are very old and most of them are dissolving.
.
--
I have no objections against the teaching process.
Teaching should be made more practical rather than keeping it limited to the books
.
No suggestions
Teachers should make classes more interesting
.
Modern learning and more participation
Atleast teach us for 45 or 50 mins. Unable to concentrate continuously.
.

Non
Good
No suggestions
Nothing
Please ask students individually if they understood or not.
-
Do revision before exam
.
None
They can make the class more fun
No suggestions.
1: I think there should be 5min after every theory lesson 2: There should be lectures till from 8am to 3pm or if more than that than more breaks 3: The prize of the canteen should be lowered as there should be some student coupon
-
None
No
During exams they run with the portion More revision
Everything is good no need of improvement
—
Have active interaction with students during class
.
No
-
1. More love example on the concepts taught.
.
No comments
• To guide us in the field of internship • Teach us to apply theoretical knowledge practically which will assist us in the upcoming future • To conduct field trips often atleast 2 to 3 per semester which can help us to know things more • To guide us in what sector should we should actually do internship....also career guidance
-
No suggestions
.
-

More revisions During exams they run with the potion
Include field-trips for better interaction and productive.
.
None
.
.
Explaining the concept using the video. Providing beneficial internship .
No suggestion
Teacher just go through the slide won't explain Don't give proper notes specially chemistry And teachers come late to class only attend last 15 mins
Field trip should be included in all subject
No

Improvisation in explaining.
.
nil
No suggestions
1. More live examples on the concepts taught. 2. The teachers should seem more approachable to discuss and put forth our point of views. 3. More problems to a related concept should be given to solve.
Some improvements could be done in the infrastructure of the class .It becomes difficult to concentrate due to dull lighting .
Introduce atleast 1 field trip or workshop for everyone subject in every semester
The college should provide internship facilities in the institution .
Specimens are not good for practical matter Speakers don't work in our class
-
.
There is a major issues with clothing They don't encourage students to participate in other events held in different colleges. No fun weeks and all. It looks like We are still stuck in Primary School does not feels like how the College life is!
More interaction with the students
Should give more examples. Should be clear.
Teacher's should treat all the students equally

Field trips for all subjects for all semesters.
.
The teachers don't give proper attention to all students only for some they give.
Some teachers have issues with the attire, Specially being in a girls' College. They do not guide the students well. They don't encourage students to take part in external events.
Teachers should Not make partiality among students
NIL
Field trips for all subjects for all semesters
1. Have some fun activities all without any limits of participation. 2. Have student and teacher communicating together in class with example and have study tour.
Nothingevery teacher's are good and they do their best
Avoid taking classes after 1:30 . DSC lectures to be taken in the morning only .
Field trips for all subjects per semester.
-
.
Very good
They don't drain us for the whole 1 hour lecture which is good. They make us understand n clear our doubts
Communicate with students
Have active interaction with students during the lecture
More practical teaching with field trips More career guidance with information of what that job does More fun activities
More interactions with the students,
1.More inter collegiate events 2. More cultural events 3. More teacher student interaction
Good
Specific references should be given.
Break time less
-
Overall the teaching is very good. No suggestions for improvement.
To revise the portion
-
--
1.Better Technology Better speakers & projector 2.Field trips for every subject

Everything is overall great in the institution .
Nothing
No suggestions
Studying should be more practical rather than keeping it limited to books
We have not taken to any interesting field trips
....
While selecting a new teacher , the committee has to make sure that the selected teacher not only has the required qualifications, teaching experience but they must also know how to develop proper communication with the students and convey the required subject to them .
.....
Nothing
Include field trip for better interaction and productivity
More activity assignment
In skills enhancement subject more subjects should be activity based subject than writing
There should be more efforts made for the explanation of certain concepts as it cannot be understood easily in one go. Secondly, the teaching should be made a little practical so that students can relate to the matter being thought. There should be field trips kept so that students can observe and understand things related to the syllabus.
There should be a discussion in person with the subject teacher in what ways she could improve and where the student has gone wrong.
1) Being more interactive with students 2) Don't take too long lectures specially during summers 3) Stop scolding students in front of the whole class as it decreases our self-esteem
No suggestions
More interaction with students Teachers should be more tolerant
Teachers should be more tolerant
Some Breaks between lectures
Practicals times need to adjust so that we have atleast one day that we can go home early
No suggestions
Having breaks in between lectures We should have more of practical teaching
Try to reach to each student and ask their doubt
No suggestions
To make afternoon lectures shorter

Introduce practicals for Ty maths
...
...
None
More practical things should be done
.
To slow down with the teaching
No
During exam they run with the portion
Teachers should be more kind , some teacher discriminated the students based on looks and grades
To put proper working projectors.
-
1)Having Mathematics practical's in TYBsc 2)Organising of activities and allowing participation of students on a fair basis 3) Help in Gu-art preparation
..
.
None
...
.
Introduce practicals for TY Mathematics students. Help students in GUART preparation
1. Introduce practicals for ty maths 2. Allowing students to participate in events 3.
Teachers should make an effort to make theory subjects more interesting by having small activities in class.
Late submission of assignments and projects should be marked accordingly as it is unfair to students who complete the work on time.
Organise more events and field trips.
No suggestions
No comments
All good
-
The teachers should elaborate and explain in brief the topics of projects given
No suggestions
-

1) Tell teacher to mind their own business (teach and go)
2) Don't interfere in students personal life and their clothes
OTHERWISE JUST MAKE A UNIFORM

-

No suggestions

-

1. More practical teaching with field trip.
2. More career guidance with information of what that job does.
3. Do not clash activities such as competitions when close to exam week.

.

-

Our teachers are always better

-

Interact with the students a little more.

Making .their language quite simple as to easy to understand
To the point explanation
Help us regarding the notes as to how to go about with it

They should keep field trip in all subjects

Not applicable

Na

It would be very nice if more examples were given while teaching in certain subjects.

-

Good

To Interact with students

No suggestions

Replace the principal of our institution. Then all the problems will be solved.

Effective teaching methods and revision during SEE , extra curricular activities

The teachers don't tell us about any courses or internship unless we go up to them and ask them about it
. Exception of the economics.

It is already d best

Revision during SEE, extra curricular activities and effective teaching

No suggestions

No

Participation , effective topic for isa , modern learning

No comments

I suggest that the teachers should have a revision day before our exams start where we summarise our syllabus.

It would be great if some teachers won't just read from the ppt, it's very difficult to understand.

.

Observations : teacher's are always helpful and kind
Use ICT tools and digital game based learning
Good learning experience

-

let us know about the internship available for us to have an experience in the subject we want to pursue in our 3rd Year.

- Important notices should be sent well in advance.
- Teachers should inform us about class tests during class hours and not at midnight.
- Teachers should be open towards using Google classroom as a way to communicate with the students.

To conduct more feild trips that will overall improve our learning teaching process

The recess timing is very less.

.

No

Better teaching tools pleaseeee
Videos will be better as teaching tools or models

.

NA

Teachers should try to understand the students be more friendly and give notes

-

No comments.

Teaching is very good

Teachers should use animations and chalk n board to make students understand the topic.
Classes are not given to seniors of the institution ie..ty
There is no action taken after taking responses from students as it remains the same as seen from last year.

Introduce more on fun teaching methods, applications
Give more information about internships

No suggestions

Practical learning

No suggestions

1. Teacher's has to take for frequent field trips because we were not taken even to one.
2. We require more opportunities to do internships.
3. Revision classes before semester end exams are required for best results.

The practical timing can be adjusted so the students are able to go home early.
Improvisation in communication, interaction
Everything good
More field trips should be held
College should atleast start by 8.30 am. Canteen food is expensive and not so hygienic.
Taking on field trips. Conduct some programs for better understanding of students
Experiencing with better knowledge and learning new things everyday
..
No suggestion
Teachers should be attentive to quality of teaching rather than quantity of teaching..
No suggestions
..
-
No suggestions
1)Practical learning should be included rather than just theoretical, 2)Enough seats should be provided to students for their desired subject , 3)All students must be encouraged to get involve in IT related courses and use of computers
Classes can be made more engaging to help understand concepts even better
Nothing
Help regarding the notes. Improvement in explanation like making it simpler so it is easy to understand . Overall encouragement is must.
No
All ok
Activities
Various cells & organisations that are present should be active & conduct activities.
The teachers should teach and know if students understood or not also teachers should not do unfair for some students.
We should be taken to more field trips by the college. The college should encourage participation in intercollegiate events and also start preparation well ahead of time. Teachers should also give duty leaves to participants.
No comments
The trs should make us understand a concept in a simple way rather then just reading the PPT slides that they prepare and assume we understand
Lectures should be short (trs take the entire lecture just explaining and repeating concepts) which makes half the class less intrested.

Practical trs are sometimes not punctual and keep us waiting for sometimes even 40 min . So i highly encourage trs to come on time

—

Provide internship opportunities

Encourage cooperative learning
Be flexible to change
Use less of multimedia

1) using more of examples than just theory
2)communicate with the students on regular basis
3) encourage team work and group study

-

Use real life example to compare
Explain the application about it
Make use of natural object to explain concepts of diagram

1 Scope of the particular subject should be discussed in detailed
2 Practical teaching should be more focused
3 Concept should be explained with the help of simple examples

It should be very interesting especially

None

Encourage students
Encourage team work
Encourage group studies give opportunities to others

Field trips
Canteen has no options and it's expensive!
And overall teaching is really good

No need

The nuns should have a smiling face in the morning.
The rules of the institution need to be revised.
There are no options in the canteen and prices are high.
Overall the teachers and faculty are really good.

We need more TY picnics Please

Having good conference

None

No suggestion

don't rush with exams we time to prepare use different teaching methods make us familiar with Questions and not the ans teach students how to solve the practical problems or (most needed)just keep 1 day practical and other day problems on that sum(dying to figure out wht to with the readings)

Some department does take ur fir field trip but overall the institute and teacher are excellent they are helping very well with ISA and encourages us further more they provide with all Gk and facts to keep us updated .

Rather than concentrating on completing the portion we can learn more about the subject ok depth
Teachers need to take more efforts in understanding topics

<p>1) tell teachers to mind their own business and don't interrupt with students personal life 2) if their have any problem with our clothes then tell them to input uniform Otherwise tell them to keep quiet and teach and go</p>
<p>Maybe be more polite to students because we as well respect the teachers.</p>
<p>.</p>
<p>.</p>
<p>LCD should be used by each teacher. Lecture timings shouldn't exceed cause sometimes we miss our break.</p>
<p>Use of power point presentation while teaching Teaching by taking us in place where we can learn</p>
<p>Internship should be provided in the college</p>
<p>1)Aptitude and reasoning class should be given once in a semester to make students ready for competitive exams. 2)Should keep soft skills class for every semester.</p>
<p>1. Regular Revision after each subject is done 2. Test on the each subject should be given 3. Students should be given a idea of about how to answer or in which way they should or could answer the paper</p>
<p>1)Teachers should look into the difficulties faced by students related to the syllabus and try and help in a possible way. 2) Teachers should revise the syllabus briefly inorder to make the students aware of the things taught before. 3)The practical component of syllabus should be given time to practice if possible,way before the exams.</p>
<p>Teachers should me more interactive with students, more knowledge should be provided about internships, lectures should me made more applicatory type and fun</p>
<p>More of interesting techniques of learning could be inculcated and the lecture duration could be maintained only for an hour and not more than that..!</p>
<p>The teaching is mostly good but there is a dire need for improvement on the lecturers side to make an effort for students to understand the concept better.</p>
<p>No suggestions</p>
<p>Take us for field trips Take us for field trips Take us for field trips</p>
<p>Should encourage students in choosing their carrier option Lectures should not be exceeded beyond the time</p>
<p>.</p>
<p>No comments</p>
<p>1) teachers shouldn't changed between the ongoing semester. 2) WiFi connection should be strong. 3) More extracurricular activities should be promoted.</p>
<p>No suggestion</p>
<p>Teaching is good.</p>

Teaching is good
The teaching methods is good
Take us for field trip Take us for field trip Take us for field trip
Faculty is well versed and experienced in their respective subjects
1) teachers should send a question bank after they finish a chapter. 2) students should be allowed to practice the practicals before exam or a brief revision could be given. 3) there should be improvement in the timetable.
The educators have been improving their efforts as soon as they obtained the results and are always concerned as to whether or not we have understood a certain concept.
Question banks should be sent so that the students can practice and so that they're are aware of how the questions can be posed and how they have to answer accordingly.
1) More carrier guidance with exact information of what they will enable us to do in future. 2) Teaching of theory should be more related to practical component where it becomes easy to understand and along with fieldtrip. 3) Subject such as zoology and physics with exam point of view should be given more time to understand the concept and please do the necessary changes before next year.
College should start little late. Canteen food is expensive and unhygienic. We should be allowed to move out of the campus
Teaching must be made for fun, to sustain the attention of the students. A break of 10 minutes between lectures to allow students freshen and prepare for the next lecture. The Duration of the lecture should be shortened as on an average a student can not pay continuous attention.
-
Teaching should be made more interesting Continuous lecture should maths be there Between lectures 10 minutes break should be give
.
College should atleast begin at 8:30am as students struggle for bus service Canteen is very expensive & not so hygiene
Teaching should include more examples
Should provide notes
More examples
All teachers should use LTD fr teaching also we are compared vit others
They should know the concept properly themselves because some of the teachers go blank while teaching.
No comments
Internships should be provided by college. College should organise field-trips atleast for DSC subjects.
.
Reduce workload Allow us to leave campus if we finish our classes early or to go to the outside shops

Improve Practical timings
1)Most of the teachers only read from the slide 2) Need more activities 3) Some teachers teach overtime
Include field trips for all the subjects for they provide more practical information for the students. Teachers should give more knowledge about the work fields in that subject. It'll help if the teachers provide at least some notes or give a question bank for their paper.
They should know the concept properly themselves first and teach us properly. Improve the quality of teaching.
Teacher's should be more interactive with the students. Teacher's should try to finish their lecture within the time. Teacher's should give more of real life examples while teaching.
..
Teachers should be more interactive with the students. Teachers should try to finish the lectures within the time. Teacher should give more of real life examples while teaching.
Teachers shouldn't use projectors often
Practical timings
Nothing
Good

Current affairs
Good
-
Involve activities that will make our learning interesting ,teachers take over time in class .
The students who don't have lectures or who want to go out for printing notes or to buy something...should be allowed to go out.
Theoretical aspects should be actually shown in reality by organising fieldtrip In relation to the subject.
Proper time management of classes (i.e timetable should be improved by keeping less free lectures and not keeping students till late everyday)
All teachers should use the LCD to teach and demonstrate. Also 2 division shouldn't be compared. Teachers should not exceed their lecture time and use recess time. Also don't take extra classes hence it's really hectic especially during Ramadan
1. Wifi connection is poor 2. Teachers should not be changed during the ongoing semester 3. Extra caricature activities should b added
Avoid changing teachers Improve the WiFi connection Add extra fans in the class
.
All teachers must use the LCD or any sort of multimedia to teach and demonstrate, two divisions

shouldn't be compared and teachers must also not exceed their teaching time limit. Also don't take extra classes hence it's really hectic especially during Ramadan.

*Slow down the phase of explanation

*break in between explanation

*loud n clear

- 1) Teachers should complete the chapters on time.
- 2) Institution should have more intercollegiate events.
- 3) Improvement in Time Table.

Teachers should atleast give some break in the lectures.

Try to reach every student and clarify their doubt.

Should keep the practicals between lectures in the morning than in the afternoon.

Projectors are not working properly so they need to be repaired or replaced.

Provide brief notes...use PPT while teaching

No suggestions

Need more activities , some teachers take over time

-More practical work than theory taught in class

-Organising Field trips make learning more effective

-To encourage students to participate in events & helping them improve

Our class is dull... Lighting should be improved... Thankyou in anticipation

Nice

1)Teachers should take 45 mins of lecture instead of 1hr.

2)Teachers don't give the exact book name to refer

3)sometimes Teachers even continue the lecture during recess

Provide brief notes in ppt

Give examples that are understandable to students

Should take outside college example For trips For better education or broadening of knowledge

Should use TV screen to teach most of the time

And lastly should come early For the practical according to the given time

1. Teachers should decrease screen timing

2. Teachers shouldn't give any other work(completing the journal) during our isa

3. Teachers shouldn't take our recess

Some subjects like economics should be taught practically by group discussion debate

Feild trips

Teachers should not judge students and should not do partiality and treat all students equally

Teacher should not take our recess .

Teacher should take 45 min lecture instead of 1 hr.

None

Everyday afternoon practicals should not be conducted because most of the time is spent in college and don't get time with family .

The teachers should be properly trained to teach the students. Sometimes trs just read from the presentation and not explain.

Teachers should teach more practically.

No suggestions

Ppt notes should be shared .

They should take us for field trips .
Teachers should provide notes to the students Teaching should be done through ppts because it makes understanding the concepts easy The students should be taken for field trips
Overall its Good Management in time should be improved
.
.
...
There should be time management Overall observation was satisfactory.
.
.
More examples

No suggestions
Connect theoretical concept to real life by organising field trips
No suggestion
Attendance is taken at the beginning of the first lecture, late comers are marked as absent, without analysing the fact that traveling is time consuming. Long hours in college makes us really tired and drains our energy, there is no time left to study or complete the notes. Colleges should end by 2 as traveling also takes almost an hour to reach back home. Syllabus should be covered at least two weeks prior so that students get to study well and there's a good time given for revision Notes need to be provided for every subject and three to four concepts can be given for additional references/notes making. The academic year should start by mid June and end by mid April with all the examinations.
Providing notes can help the students with the learning process.
Overall I like the teaching of our institution....
-
Teachers should not be changed during on going semester. There should be curiculative activities for the students. The teachers should be more friendly with the students.
-
It would be really better if the teachers would upload their ppts/notes at the first minute itself because it becomes much easier to study on a day-to-day basis as we can also get ample of time to prepare our own notes with the help of the ppts that are provided to us at the earliest. Majority of them upload their ppts 2 to 3 days or sometimes even 1 week prior before the ISAs which becomes very very difficult to study. This should not be the case. I hope my suggestion will be taken into consideration. It's a humble request.

Our teachers are teaching good
Lectures should not be extended beyond the recess.
.
.
Good
.
Teachers should not be changed during ongoing semester. More extra curricular activities. No proper sitting area.
Every department teacher's is good they don't need any suggestions ☐.
It's good
More examples to be given about a particular topic.
Should b given more examples and ppt video n revision.
It would be a little better if intercollegiate events were prioritised too
Nothing
Teachers should relate the syllabus with practical work and it's applications and the purpose for learning each topic. Teachers should have some career guidance and Q and A sessions with students.
Limited classrooms
Improving my studies better then before
Its good
Teachers should know the weakness of students so they can help students to overcome through it .
Na
No
Timetable issue
.
.
There are late lecture which are usually hindi only thats unfair for hindi students. Hindi is very neglected subject which is thought in this collage.
Provide notes, breaks between lectures and not exceeding the lecture time...
1)Teachers should not be changed during on going semester.
Teachers should not be changed during on going semester. Extra curricular activities
No suggestions
...
None

For hindi student the lectures are never in the morning they are always later class.

More amount of field trips should be given to understand certain topics.

Intervals in between the lectures to relax the mind.

Applications about it should be discussed more
Students should get more application based assignment

Our teachers train us for life, and not just for syllabus. Am satisfied and Grateful.

□

-

Try to get closer to students as much as possible.
Interact with students more and more.
Figure out the issue the students are facing.
Be more practical with what is to be taught.

Excellent teaching and supportive

1)teachers should reduce screen timing in class
2)teachers shouldn't ask journal to submit during(Isa)

Taking on field trips
By programs and different activities

.

Nothing much

--

Make the subject interesting by citing examples

.

No suggestions..

They need to communicate well

Set up more projectors as some are not working .

There are no events held in the college
Some teachers are having issues with the clothing.
And treat us like primary students and can't enjoy our college life and too much shifting from one place to another.
And we don't have college tour.

There are no events that can make the students more engaging. This college have problems with attire.
There is no proper place to sit in a group to make projects and assignments. We ask to have a tour in out college.

1) Allow students to go home early if they have no lectures or need to go to the printing shop outside without having to ask for permission.
2) Exchange the zoology practicals with physics practicals on Wednesdays so that PCB students get to go home early at least once a week.

A place to sit on college campus with shade as there's too much heat and gates are closed it difficult to work on campus with no shade.

Teachers need to ensure students have understood the topics.

More college activities for students need to be added for opportunity to everyone.

Early completion of portion would be good as students get time to study and go through the notes.

A revision before main paper is not done by most teachers

No suggestions
No suggestions
Nil
Field trips
Should use black board more while teaching. Explanation is done very well. They are always on time for lectures.
.
some teachers are really good but some are not.
Overall it was good
No suggestion
The teachers can include examples to make it understandable
There should be most curricullam activities
No suggestions.
-
.
.
The institute should wind up the college before 1:45 pm as the students are seen doozing during the afternoon lectures. The teachers should ensure that every student is able to understand whatever they need to.
No comments
They should encourage the student more. They should leave the students at 1.30. Need improvement in teaching.
The teachers should should ensure that every student is able to understand whatever they need to.
--
.
Everything is good
No suggestions
Good....
Teaching is ok
The institution should have more extra curricular activities and not only over burden with lectures and keeping those activities after lectures in the afternoon
.
I don't have any suggestions
Nothing
No suggestion

.
Fairly good
New technology new lab setups
Teacher's should understand the children situation and help them in their studies nicely
No suggestions
1)Tr can revise the syllabus all together at the end once it's over. 2) There can be random quizzes weekly where all the streams together can participate and learn new things. 3)Tr should not delay too much (like 20 min) to come to class and also to leave class after time is up.
The teachers should elaborate the concepts in a better way.
I think there should be more creative actives introduced for the department
More practical aspects should be included Extra curricular activities should be promoted besides regular academics
.
1) Teachers shouldn't be wasting time in the initial days and then when the exams are close by running with the portion 2) They shouldn't be partial or bias towards certain students . They should treat each and every student equally 3) Try to explain difficult concepts in more simpler words rather than using high vocabulary.
..
Thank you
Everyday Teaching in classrooms are boring field trips are also required
.
No suggestions
Nothing
Nothing to suggest as such because we've the best of everything and going to college feels like luxury because of their innovative ways of teaching.
Practical should be preferable in the morning half
No
-
No Suggestions
Need to give notes
Good
None
Nothing much to say about it . It's going on good
All are good
Good

<ol style="list-style-type: none"> 1. Spacious classroom 2. Inter college activities 3. -
Very good
.....
<ol style="list-style-type: none"> 1) Firstly for ISA II portion to study should be only 1 chapter for each teacher because each chapter contains many slides and it's difficult for the students to study 4 chapters for 10 marks . 2)Secondly , lectures shouldn't be exceeded beyond the class hours .
They should keep field trips in all subjects
-
<p>Feedback of the students performance</p> <p>No partiality</p> <p>And grading the students based on the hardwork not on the teachers attitude towards the students!!</p>
<ol style="list-style-type: none"> 1. Proper addressing about the outcomes and communication of the syllabus and the course 2. Evaluation was a bit unfair in the current semester. 3. Better explanation with examples
<p>Teachers hired should be have knowledge of the papers assigned to them for teaching, which is absolutely missing in this institution.</p> <p>My observation was there's a teacher who is very partial and biased in giving marks, judging students based on their religion is a very wrong practice and she does that everytime, and we the innocent students suffered with low scores everytime due to her partiality and biased nature. Take action against her first! She needs counseling first and thn she can be made ready to teach the paper she is teaching! I really mean what I said!</p> <p>Thirdly, they tell us one thing and mark us based on something else. For example our teacher told us to submit summary report for assignment which we did but instead of marking us for summary she marked us based on the pages submitted that is student who submitted 20 pages scored 18 marks and me who submitted 3 pages got 3 marks. Now I couldn't go and explain the teacher who has no knowledge of what summary is and how long a summary should be. That's why writing it her. Kindly take action on this aspect. Otherwise students won't leave the college with satisfaction just like me and my classmates!</p>
<p>Out of 4 chapters, around 2 chapters are given to students for presentation, some students explain well, majority of them are lost. At the end while answering the paper, rest of the class suffers. Some teachers are unfair. The hardwork is not noticed many a times. Learning about mental health and not getting an environment after paying so much is sad. Other colleges have internships, here we went for 12 hours observation. Where do we have the exposure. Majority of my classmates have suffered, and now our lives have been changed forever.</p>
Use other ways of teaching
<p>First of all they should be treat each and every students equally.</p> <p>Give them exposure to learn new new things.</p> <p>Discriminate which i have faced in this institution,i will never forget that.I have work hard to earn this degree with good percentage,but i don't think so that your hardwork paid also . Coming from middle class family, spending so much money to earn degree but in last that degree is also like just a piece of paper, other institutions provides internships but in this institution only for 12 hours observation, and i don't know where this observation will useful also.</p>
